

HELP MIGRATION WORK FOR ALL

IOM – UN Migration is the leading intergovernmental organization in the field of migration. Since 1951, we have been supporting migrants around the world, developing durable solutions to the shifting dynamics of migration.

We are in more than 150 countries, serving millions of people in the areas of humanitarian assistance, health, climate change and sustainable development. We are among the first on the ground in emergencies, developing the resilience of people on the move, and work with governments and communities to manage the impact of migration and help people build better lives.

“Migration will be a way for the private sector to continue to innovate, to continue to spur economic development. Building partnerships is ultimately key to success.”

Amy E. Pope
IOM Director General
