This flagship *World Migration Report* has been produced in line with IOM's Environment Policy and is available online only. Printed hard copies have not been made in order to reduce paper, printing and transportation impacts.

Since 2000, IOM has been producing world migration reports. The *World Migration Report 2020*, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world.

This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.
