Return from Pakistan

A total of **3,436** undocumented Afghans spontaneously returned or were deported from Pakistan through the Turkham (Nangarhar) and Spin Boldak (Kandahar) border crossings during November 2017, according to the Border Monitoring Team of the Directorate of Refugees and Repatriation (DoRR). Of the total returnees, 3,078 were spontaneous returnees and 358 were deported. This number marks a **23% decrease** compared to the previous month (4,694). The total number of undocumented Afghan returnees from Pakistan since 01 January 2017 is now 96,204. IOM provided post-arrival assistance to **86%** of undocumented Afghan returnees from Pakistan (2,947 individuals), including 2,124 individuals in poor families and 761 individuals in single parent families, 57 individuals as special cases (SC) and 2 unaccompanied migrant children (UMC). The assistance provided includes meals, accommodation, basic medical screening, Non-Food Items (NFIs), onward transportation cash grants and referral services, as well as support from partners.

IOM Winter Assistance

With the generous contribution of the Czech Republic, IOM began household level winterization assessments in partnership with the Directorate for Refugees and Repatriation (DoRR) on 06 November for several hundred returnee families from Pakistan in four provinces of high return to identify those families who are most vulnerable to harsh winter conditions. In total, IOM will distribute 510 winter support packages to 510 families (300 in Nangarhar, 100 in Kabul, 50 in Laghman and 60 in Kunar). Each winter package consists of a family sized tent (7 persons) and Tarpaulins, blankets, a gas heater, and 60 USD cash for fuel for 3 months.

Thus far, IOM staff have completed the assessment of 270 pre-identified vulnerable families in Kabul, 50 families in Laghman, and 60 families in Kunar. In Nangarhar, IOM has thus far assessed 180 families and assessments are on-going.

Situation Overview

IOM is responding to a substantial increase in the return of undocumented Afghans from Pakistan and Iran. Since 01 January 2017, over 506,000 undocumented Afghans have returned due to diverse push factors, including deteriorating protection space in Pakistan and Iran. This figure represents a significantly lower rate of return than in previous year. Most of those returning have lived outside of Afghanistan for decades, and will need support from the government and humanitarian actors both on arrival and as they seek to reintegrate. As the rate of return is influenced by a number of political, security and other related factors both in Afghanistan and neighboring countries, another surge in returns could occur at any time. IOM estimates that approximately 553,084 undocumented Afghans could return from Pakistan and Iran in 2017, and is working to scale up its support to returnees in coordination with the Government of Afghanistan and other humanitarian partners.

Marjan and two of her three sons in front of their family's home in Kabul. Her husband died when her oldest son was just a baby. The family is struggling to cope with Afghanistan's harsh winter conditions as the only breadwinner of the family, her oldest son Ahmad, a fruit juice maker in Kabul's Shahr-e Naw, barely makes enough to cover their food expenses.
