HIGHLIGHTS

As of 16 June, IOM has assisted 48,653 IDP households with 35,116 plastic sheets, 2,730 toolkits, 464 tents, 2,496 structural support poles, 9,408 blankets, 1,898 kitchen sets, and 1,418 solar lights to IDPs in Sofala Province.

IOM CCCM teams continued working to clear plots and ensure access to essential services in Mutua relocation site in Sofala Province for households currently residing in Samor Michel and Picoco accommodation centres.

IOM's MHPSS teams reached 95 women through cultural dance activities in collaboration with ICDP in Metuchira Centre, Nhamatanda District in Sofala Province. The cultural dance was used to identify further PSS needs of the women and 43 were referred for mental health service support.

SITUATION OVERVIEW

In March and April 2019, Mozambique was hit by two consecutive tropical cyclones, impacting several coastal areas, bringing a path of destruction and damage to the Sofala, Cabo Delgado and Nampula Provinces in central and northern parts of the country. Cyclone Idai, a category-4 cyclone, made landfall near Beira city on 14 March, with winds blowing at over 220km/h and causing the deaths of 603 people and affecting over 1,500,000 people.

In addition, Cyclone Kenneth made landfall in northern Mozambique on 25 April, with 200km/h winds impacting several coastal areas, bringing a path of destruction and damage to the Cabo Delgado and Nampula Provinces, resulting in the deaths of 45 people and 286,282 people affected.

According to IOM's Displacement Tracking Matrix (DTM), as of 14 June, four accommodation centres are open hosting 3,132 individuals (881 households), and there are 46 relocation sites with 50,114 individuals (11,233 households) in Manica, Sofala, Tete and Zambezia Provinces.

In order to respond to the humanitarian needs of over 2.2 million people affected by Cyclones Idai and Kenneth, IOM is appealing for USD 52 million for 10 months (March – December 2019). To date, IOM's appeal is currently funded at 31.5%. Humanitarian stakeholders are seeking a total of USD 386 million of relief aid to address the needs of affected populations by both cyclones up to 30 June 2019.

Humanitarian and road access has been limited within the coastal areas of Northern Macomia Sede District, Cabo Delgado Province where populations were affected by Cyclone Kenneth. Despite logistical challenges, IOM teams continue to support affected populations with shelter-NFI solutions, protection, mental-health and psychosocial support, coordination and are developing plans, in collaboration with relevant shelter partners, to access localities in hard to reach areas.

CYCLONE IDAI RESPONSE

SHELTER AND NFI

Between 1-16 June, IOM distributed tarpaulins, toolkits, wood poles, and blankets to 414 households in Mandruzi relocation site and on 14 June, IOM distributed two pieces of blankets each for 292 households in Mutua relocation site. Additionally, on 15 June, IOM supported 55 households arriving in Savane relocation site with setting up of family tents at the allocated plots.

To date, IOM has assisted 48,653 households with shelter and NFI support, including distribution of 35,116 plastic sheets, 2,730 toolkits, 464 tents, 2,496 structural support poles, 9,408 blankets, 1,898 kitchen sets, and 1,418 solar lights.

CAMP COORDINATION AND CAMP MANAGEMENT

CCCM teams continue working in Mutua relocation site to clear plots for households currently in Samora Michel and Piccoco accommodation centres and to ensure access to essential services in Mutua relocation site. IOM has also supported machinery works to clear the main road on site to ensure access for essential services in the site. Site Planning teams published maps of the nine relocation areas in Buzi district and are working on developing site plans and supporting site development works.

Furthermore, IOM supported the relocation movement of 55 households from Piccoco accommodation site to Savane relocation area in Dondo, Sofala Province.

DISPLACEMENT TRACKING

DTM is tracking 54,207 individuals (12,579 households) across 50 sites on a daily basis and is disseminating updates via OCHA's Humanitarian Response Platform to over 990 individual recipients from over 177 different organisations. As of 14 June, four accommodation centres are open, hosting 3,132 individuals (881 households), and 46 relocation sites housing 50,114 individuals (11,233 households) have been established in Manica, Sofala, Tete and Zambezia Provinces.

HEALTH

IOM's medical teams reached 75 people in Metuchira with health education messages on tuberculosis (TB) including signs, symptoms, transmission and treatment. In addition, 30 people were counselled on sexual abstinence. 15 TB suspects were screened and referred to health facilities as well as 45 patients with chronic diseases such as HIV/AIDS, tumours and other acute diseases.

PROTECTION

IOM (in partnership with UNICEF) completed a scoping mission to Nhamatanda District in Sofala Province and held a workshop in Chimoio in Manica Province to identify gaps faced by reference groups to be addressed with support and capacity building within the following months.

MENTAL HEALTH AND PSYCHOSOCIAL SUPPORT

Through an MHPSS talk, 137 beneficiaries were reached with messages on mental health issues, diseases, prevention and treatment. 17 adult beneficiaries were referred for mental health services by IOM MHPSS teams in Ndeja.

CYCLONE KENNETH RESPONSE

SHELTER AND NFI

As of 15 June, IOM assisted 7,193 households with shelter and NFI support, including distribution of 5,535 tarpaulins, 296 blankets, 294 kitchen sets, and 110 toolkits. Through the Shelter Common Pipeline, IOM has supported partners in the distribution of 8,079 tarpaulins and 1,528 mosquito nets. IOM organized a tarpaulin distribution in Macomia District, Cabo Delgado Province on 10 June (Mucojo Sede aldeia) and 14 June (Runho, Nambo and Nagulue aldeias) where 2,106 families were supported with Shelter-NFI materials.

CAMP COORDINATION AND CAMP MANAGEMENT

IOM is coordinating with Ajuda en Accion, an INGO that is focal point for the Taratara transit camp in Metuge District. As of 16 June, IOM delivered 80 tents benefiting 147 families displaced from their original communities following extreme flooding caused by cyclone Kenneth. Following a request by UNICEF, one large tent was provided to the local school to help with the continuation of the classes. Moreover, IOM is supporting the expansion of the site to allow for one tent per family as, at present, most families are sharing tents.

DISPLACEMENT TRACKING

As of 13 June, four sites are still open in Cabo Delgado Province hosting a total of 1,231 individuals (255 HH). The government of Mecufi District identified land (Satsalane community) for a relocation site with capacity for 150 plots. The DTM team in Pemba is supporting the government of Mecufi district with planning statistics for the

relocation process of the families living in Muinde host community. The DTM unit is conducting the first round of baseline assessments in eight districts (16 localities) of Cabo Delgado Province to gather information on the number of households affected by shelter damage and the number of people who have left their localities or have returned.

WATER, SANITATION AND HYGIENE

Assessments of water supplies in Cyclone Kenneth affected Districts are ongoing. Inspections and assessments are being conducted to determine engineering needs and potential WASH interventions of the cyclone affected population in Cabo Delgado Province. IOM's WASH teams are in the process of identifying implementing partners in Macomia District as well as Ibo and Matemo islands in Cabo Delgado Province.

PROTECTION

IOM's Protection team is moving ahead with the joint trainings planned on Child Protection and Combating trafficking in coordination with the Prosecutor's Office and the Cabo Delgado Province Reference Group. The first training will take place on 17 and 18 June.

MENTAL HEALTH AND PSYCHOSOCIAL SUPPORT

IOM's MHPSS team finalized their implementation plan with key stakeholders from the Protection Cluster and Cabo Delgado Province government. The plan will begin next week.
